

Professional Circus Arts

Festivals and Stage Shows

Ambient Performances

These acts are meant to add to the background atmosphere of your event. This option is perfect for instances where guests will be moving throughout the venue, or in restaurant settings where you would like to create background entertainment for your guests. Ambient performances can be arranged in intervals or as a continuous set

Stage Shows

Looking for a full scale production for your live event? We create dynamic live performances on the stage and in the air, from flaming hot fire acts to full scale outdoor festivities. Costumes and performances are fully customizable to match your event theme.

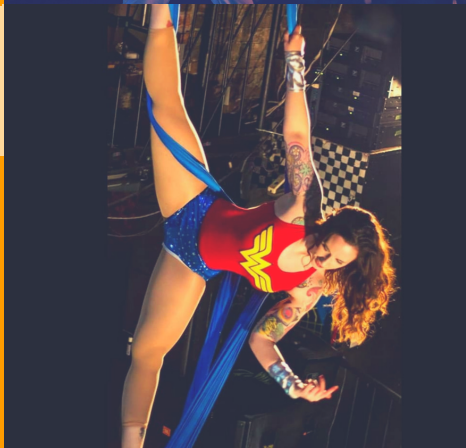

**Does your event have live music?
We are happy to collaborate with
musicians to create custom acts**

Family friendly Event?
