requirements

*We also do general animation
and aerial bar-tending

General Animation

Animation entertainment can
be mobile in the crowd, precise
spots at certain moments or for
the whole duration of your
event. Artists mingle with the
crowd to provide one on one
attention to your guests.

About Us

Cirque'letics is a community-based
educational facility where all individuals
can safely learn and develop circus and
acrobatic-based skills . We strive to
contribute to the artistic community of
Newfoundland through the learning and
creation of circus-based educational
programs and performances.
